- Q Includes data/electrical outlets.
- Q Butterfly access doors on top make it easy to access the outlets and stow away unwanted cables.
- Q High capacity trough to store routers/hubs etc.

Simplicity. Value. Perfect Fit.

The Integra series delivers high functionality at a value price. Each hide-away center trough is large enough to put additional power strips, network routers, and other electrical devices to meet the most demanding electrical and data requirements. Commercial-grade laminate ensures exceptional durability against dents and scratches. The elliptical bases are constructed with extruded aluminum for durability and a high-tech design.
